

Hello, Bobcats my name is Moises Mendez my pronouns are he/him/his, I am a second-year Material Science and Engineering major and a first-gen student from Los Angeles. I am running for Senator at large and will tackle the responsibility of enhancing UC Merced's growing community. My goal as your senator is to improve the quality of life at UC Merced by making sure that clubs represent themselves more throughout campus. In addition, I will work with other Senators to create a sense of community here on campus by enhancing one's experience through working with event organizers to plan and fund events that will have students engaging with one another. To achieve this, I will keep communication clear and concise by improving the monthly newsletter. By working together, we can make UC Merced a better place.
